

We have invested in technology that exceeds CDC, OSHA, and ADA guidelines to ensure the safety of your visit.

These simple COVID-19 precautions will help ensure your safety when you visit.

Check-In Procedure

When you arrive, please remain in your car and call us first. This will help ensure proper social distancing in our waiting room.

Wear Masks!

We ask that you please wear a mask when entering our office and throughout your stay, as our state's guidelines require.

Wellness Checks

Once you're inside, we'll ask a few simple screening questions related to COVID-19. We'll also take your temperature, and provide a quick oral rinse before your treatment begins.

Social Distancing

Please be sure to schedule your appointment in advance, and limit a companion if necessary to one person, to ensure social distancing.

Reschedule If...

You or anyone in your household is sick or has been sick in the last 14 days.

Dear valued patient,

I'm very pleased to let our patients know that Maywood Dental Associates is fully open again, and that we're providing all of our services in safety and comfort.

Over the last several months, we've returned to our normal operating schedule and we've welcomed many patients back to our office. It's been wonderful seeing so many of you again. Proper dental care is so important to our overall well-being, and to living our healthiest lives possible.

We'd like to note again that we've adopted many new procedures at Maywood Dental to ensure your personal safety and provide the cleanest, most healthful environment.

These include installing surgically clean air purifiers; upgrading our Personal Protective Equipment (PPE); providing patients with both an anti-viral rinse and disinfected goggles for eye protection; and observing a process of continuous disinfection for our treatment rooms. All of our safety measures meet and exceed all recommendations from the ADA, CDC and OSHA.

We've also introduced changes in our office procedures to further enhance the safety of our patients and staff.

When you arrive for your appointment, you'll experience a new patient flow, with contactless temperature checking, screening, and hand sanitizing. You'll be seated in private seating, to help provide proper social distancing. You'll see that our front desks have a new glass partition to create a zone of comfort for patients and staff. You'll also find that more time is scheduled between appointments, to ensure ample physical spacing throughout your visit.

Please let us know if you have any questions or would like to discuss your treatment options in advance. We're happy to talk more if you'd like about the steps we're taking to keep you, and all our patients, safe in our practice. To make an appointment, please call our office at 201 845 4442 or visit our website at www.maywooddental.com

Thank you again for being our patient. It means so much to us to be fully re-opened and to welcome you back -- our patients, neighbors and friends.

Sincerely,

Dr. Yan and team
